

My Angel,

Were you an angel winging by this night?

I think you must have been, as I felt you by my side,

Did you ask our Lord if you could fly by, just to see us once again?

I know he would have let you come, as God hears the prayers I send,

I know you have been flying by, I sense you are around,

Do you stop by Mom's while she sleeps, just to touch her brow?

I believe you were here again, I felt you in my sleep,

Did you bring your brother Nugget with you? It's a secret I can keep?

I know that you could see me, while you flew on by,

I thought I felt a rain drop, Chauncey please don't cry,

I miss you more than you will know and more than I could ever say,

Do you think God would let our angel come back another day?

Just so you'll know that you are not forgotten, I'll stay awake tonight,

Just to catch a glimpse of you, how beautiful a sight,

My love will never fade for you, its locked deep in my heart,

17 years of blessed joy, O' death can never part,

So, do you think God would approve to let you wing by again?

He knows that I am waiting, as he hears the prayers I send.

So, do you think you could possibly come back this way someday  
sometime soon?

I'll be watching and waiting for you angel, even looking behind the  
moon...
