

My lab's my friend
My lab's my bud
She has a heart of gold

Wherever I go
Is where she is
No matter what she has been told

I rub her head
I rub her neck
I even rub her tum

I give her treats
and kisses sweet
and pet her fuzzy bum

She is good
She is pure
She loves me with all her heart

Now that she's gone
I miss her so
with her my soul can't part

I hope she knows
wherever she is
that her mommy loves her so

I hope she's ready
to meet me there
at the end of that lovely Rainbow
